

THE PATH TO NET ZERO ENERGY

Commercial Building Energy Efficiency

Speaker

Jason Collins, AIA LEED AP CEA

Mr. Collins is a LEED Accredited Professional registered with the US Green Building Council. He is also a residential Energy Rater through the Alaska Housing Finance Corporation program and an Association of Energy Engineers Certified Commercial Energy Auditor.

Jason has been practicing architecture since 1997 and has been doing energy audits for the last three years. He is a partner at Wolf Architecture in Palmer where he has worked on a number of LEED and energy efficient projects.

The presentation will overlap some basic concepts of the LEED program and commercial energy efficiency.

Topics

- Overview of the USGBC LEED Program
- Commercial buildings and utilities
- Commercial Energy Efficiency strategies
- Example projects include:
 - MSB VCRS Recycling Facility (LEED Gold)
 - Image Audio retail store
 - MSB Public Safety Buildings 63 and 66
 - Government of Canada Jean Canfield Building (LEED Gold)
