

ACAT Energy Workshop

October 29, 2024

6:00-7:30pm (via zoom)

ELECTRIC VEHICLES IN THE FAR NORTH

Presenter:

Michelle Wilber, ACAT Board member & ACEP Research Engineer

Wondering how electric vehicles perform in Alaska? Join us for a comprehensive workshop exploring the unique considerations of EV ownership in Alaska's challenging climate. From cold-weather performance to charging infrastructure to real-time data on how EVs have performed in Alaska, we'll cover everything you need to know. Plus, we'll introduce a helpful savings calculator to compare EV costs with traditional gas vehicles—showing you if going electric could save you money in the long run. Whether you're curious or seriously considering the switch, this workshop offers valuable insights tailored to Alaska's unique driving conditions.

REGISTER NOW: www.ACAT.org

COST: FREE for ACAT members, \$10 for non-members
