743-4270

November 5, 2011

1:00 pm - 5:00 pm
Agate Inn
4725 Begich Cir
Wasilla, AK
373-2290

Speaker

Jack Curran, PhD, President of LED Transformations, LLC has over 25 years of product development experience, including patents for a number of products based on LED technologies. Dr. Curran has given numerous talks on the correct use of LED technology for general illumination applications both for his own company and on behalf of the U.S. Department of Energy Solid-State Lighting Program.

Besides the opportunity for significant energy savings, LED technology also opens exciting design opportunities for architects, lighting designers, builders and consumers.

Attendees will come away with an understanding of :

- LED lighting basics
- Strengths and weaknesses of LED technology
- Separating fact from fiction
- How and where LED lighting is appropriate
- Resources available
